

## 04: Colours

Goal of the week:

Understand color theory and how to use colours.

### Exercise 1 :

For this exercise you are **not allowed to use the colour picking tool!** You have to open the file called “Swatches\_Exercise” . Try to recreate the swatches by playin with hue, value and brightness. It is okay to try multiple times. On top of that you will have to write down what color palette it is. You can double click the Text layer.

Save :

### Exercise 2 :

Open up the “houses-exercise file”. Now it is up to you to make color palettes. Give the houses a monochromatic, analogous, complementary and triadic palette. So, 4 variations. If you are ready feel free to make some more, like a split complementary for example.

Save :

### Exercise 3 :

In the folder called “cards” you will find some card frame designs. Try to recreate one of them with the tools you’ve seen till now. You don’t have to recreate what’s inside the frame, just the frame.
